4:00 - 7:00 p.m. (Registration: 3:30 p.m.)

Readfield Town Office, Readfield, ME

Brain Gym is a learning program used by people of all ages to bring about rapid and often dramatic improvements in their reading, writing, language and numerical skills. Many use this work to profoundly enhance the quality of their attention and concentration, relationships and communication, memory and organizational skills, athletic performance and more! Brain Gym activities are lively and fun to do, and have been shown through years of field studies, research reports and practical experience to teach learners the physical skills they need for academic success. The Brain Gym model is consistent with the latest findings in neuroscience, which validate that new neural pathways grow when we move with intention. Participants will leave with strategies for improving focus, organization, communication and behavior.

Presenter: Beth Stoddard, MBA, is a licensed Brain Gym® Instructor and educational kinesiologist who, in addition to having a private Brain Gym® practice in Portland, travels and teaches throughout Maine. She has taught, coached, and consulted since 1960 and celebrates the many ways that Brain Gym® facilitates learning. Her website is www.TrainTheBrain.Biz.
