

MAINE SUPPORT NETWORK

MATH! More Than Just Numbers: 10 Strategies for Elementary Math Learning

November 3, 2009 (Registration Deadline: October 26, 2009)

4:00 - 7:00 P.M. (Registration time: 3:30 P.M.)

Bangor Area High School, Cafeteria

Spend an evening with other interested colleagues exploring, clarifying, building upon, and enhancing your understanding of strategies that support elementary math students. We will use interaction to learn from each other and find out what we are doing to support math learning in our schools. You will leave with 3 things you can do on Monday that will enrich your students' development in this challenging subject area.

By the end of the session, success will look, sound, and/or feel like:

- ♥ A pocketful of strategies for facilitating elementary mathematics learning.
- ♥ A clearer understanding of what it means to support and develop a learner's math learning.
- ♥ How to coach your students to use strategies for math learning.
- ♥ Feeling renewed, re-energized, and revitalized from sharing a learning experience with your professional peers.

Corda Ladd Kinzie is fun to work with, and passionate about learning and teaching. She is a master teacher who has conducted many professional development activities designed to enhance teaching and student learning by differentiating instruction using Celebratory Learning attributes and strategies. Corda has a systems view of the change process which allows her to create transformative learning environments.

Workshop fee of \$65.00 includes hearty snacks and handouts. **Discounts available:** \$5.00 discount for registering or preregistering online using C-vent. Our **cancellation policy** is 72 hours prior to the event. You will be expected to pay if you do not attend and cannot provide **printed confirmation** of your cancellation.

Three Clock Hours will be awarded.

Co-sponsors: Maine Support Network, and the Maine Chapter of the Council for Exceptional Children.

On-site facilitator: Alcinda Hall, Penobscot Regional Facilitator.

This workshop is designed for teachers, ed techs, and parents who teach or support elementary (K-6) math learning.

All workshops meet Highly Qualified state criteria.
